

C. It's easy ^ _ ^

time limit per test: 0.25 seconds
memory limit per test: 4 megabytes
input: standard input
output: standard output

Each year, the University of Assiut and the Faculty of Computer and Information holds a competition **Assiut CPC**

This competition that qualifies for the **ECPC** competition which is held every year in Alexandria and is at the level of the Republic

When we were on our way from Assiut to Alexandria for the **ECPC** competition.

Coach Hussein would love to test students who were going to the **ECPC** and asked them some questions, one of those questions was

He will give you a number and your task is to determine the first Digit number from the left ,
IT'S EASY

Input

Only one line contains integer number **N** , where $(0 \leq N \leq 10^{18})$

Output

Print first Digit number from left.

Example

input	Copy
1234561	
output	Copy
1

→ Virtual participation

Virtual contest is a way to take part in past contest, as close as possible to participation on time. It is supported only ICPC mode for virtual contests. If you've seen these problems, a virtual contest is not for you - solve these problems in the archive. If you just want to solve some problem from a contest, a virtual contest is not for you - solve this problem in the archive. Never use someone else's code, read the tutorials or communicate with other person during a virtual contest.
